

What educational resources does Pietra have to help me launch my business?

group: Educational Resources

Pietra offers a free weekly business classes that you can sign up for directly from the "Education & Help" tab within the Creator Hub. These classes take place every week, and are led by a Pietra specialist, so that you can get a full tutorial of the Pietra platform and get any of your preliminary questions answered.

These workshops will help you take an idea and turn it into a real business. Each workshop allows you to ask questions to a specialist who will help you understand how to work with manufacturers, set up order fulfillment for your brand, and setup an eCommerce storefront.
