

Do you have an overview of what Pietra Offers?

group: Educational Resources

Pietra offers entrepreneurs and brands three main things:

- 1) Access to a vetted manufacturing network. Members are allowed to contact and work with 900+ handpicked suppliers from around the world that already work with top brands. This saves you time and money trying to find the perfect manufacturing partner.**
- 2) A members-only fulfillment center where you can store your brands products and inventory and ship your products around the world to customers, retailers, and wholesalers. Think of it as your own warehouse, only more affordable. Storage and fulfillment rates are 30-50% lower than if you went somewhere else.**
- 3) An online sales network to get your products online and selling. If you're starting small, you can create a Pietra storefront and start selling quickly. If you're looking to grow, you can list your products on 15+ sales channels to sell your products in popular shopping destinations without having to manage many different accounts.**
